Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 20, 21, 27 are rejected under 35 U.S.C. 102(e) as being anticipated by Vodakov et al. (US 6,508,880 B2).

Vodakov et al. discloses an apparatus for growing silicon carbide single crystals. Figure 5 shows the main features near the seed crystal (501). On the rear of the seed crystal is a graphite foil layer with a graphite disc above that. (see col. 9 lines 5-40) The graphite layers (i.e. a form of carbon) constitute a multi-layer protection material which is disposed as to close an opening formed in a wall of the apparatus. Behind the graphite disc lies a gap from which heat is removed from the seed crystal vicinity up and out through the top of the apparatus. The apparatus has provisions for raw materials to be placed into the lower end. Heaters exist which heat the material up to the growth temperature. The seed crystal is placed at the top end of the apparatus during growth. In Fig. 5 is seen item 505 which supports the seed crystal substrate

mechanically at a certain position in the container. The support mechanically supports the seed crystal substrate at its periphery and a gap is formed between the protection layer material and the inner wall of the heat pipe (517).

Allowable Subject Matter

3. Claims 17-19, 24-26 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The entire front surface of the silicon carbide single crystal substrate did not face the source material to grow the silicon carbide single crystal in the prior art growth apparatus.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Claim 28 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter:

Art Unit: 1765

The prior art does not suggest a conically shaped inner surface that protrudes from the supported face.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
